GUN PLAY IN HEART OF LYNN

Following the Murder of Landrigan His Sons Seize the Money and Police Give Chase to Men, Who Make Good Their Escape—Later Two Were Killed and One Captured.

LYNN, Mass., June 25.—A daring holdup in the heart of the business district of Lynn resulted in the death of a prominent manufacturer, who was shot through the heart, and the mortal injury to a policeman. The highwaymen failed in their purpose for they did not secure the \$4,500 package the manufacturer carried.

John L. Landrigan, a prominent shoe manufacturer, was escorted by his sons and Policeman Carroll while he carried \$4,500 in currency from his office to a nearby bank. Almost within a stone's throw of the business corner of the busy factory town the party was set upon by three highwaymen, who demanded the package.

At a show of resistance the thugs fired at the party. Landrigan, though wounded in his back, managed to escape his heart. Policeman Carroll was also struck by several bullets. He will die. The highwaymen snatched the package, but Landrigan's son grabbed the money as the bandits fled toward Essex.

The shots attracted a large crowd, including several policemen. In the pursuit, the bandits fired in all directions as they ran for safety. The chase after them was taken up by the police but they escaped without leaving a clue to their identity behind. Policeman Carroll was removed to the hospital, where his death is momentarily expected.

The bandits escaped through a patch of timber in the Lynn woods but were surrounded. One robber shot himself dead, a policeman killed another and the third was captured. Policeman Carroll died soon after reaching the hospital.

Senator Gore Carries Point; Senate to Probe

WASHINGTON, June 25.—An investigation into the affairs of the Choctaw and Chickasaw Indians that promises to include the sensational bribery charges made by Senator Thomas Gore of Oklahoma, has been decided upon by the Senate. Senator John Keen, on the committee of Contingent Expenses, favorably reported the Gore resolution introduced some time ago providing that the committee on Indian Affairs, or a subcommittee, investigate whether the Indians need legal services in connection with the sale of their coal and timber lands and inquire into any contracts made to determine whether the 10 per cent. commission on such contracts was reasonable.

The resolution was adopted without discussion. There is some question whether the bribery charges properly enter into the investigation but the attempt will be made to include them. Senator Hale, Senate leader in the absence of Senator Aldrich, announced that he expected Congress to adjourn before 5 o'clock this afternoon. The Congressional Halling-Pinchot committee adjourned today until September 5 when it will meet in Minneapolis, Minn., to formulate its report.

Father Not to Fight if Son is Declared Sane

United Press Telegram. JERSEY CITY, N. J., June 25.—Just what means will be used in the defense of Porter Charlton, charged with the murder of his wife at Como, Italy, will be determined when the attorneys, Drs. A. M. Hamilton, Charles A. Dani and Artiz Fisher make their reports on Charlton's mental condition to Attorney William D. Edwards.

Edwards says Judge Charlton, the prisoner's father, desires only fair play and if the attorney decides the youth is sane he will not fight to prevent the trial.

If Charlton is declared insane, counsel will immediately institute habeas corpus proceedings to secure his release from jail and commitment to an asylum.

Captain Scott, the murdered woman's brother, has Attorney Emil Fouch collecting evidence to show that Charlton is sane. The prisoner spent a quiet night, reading "The Last Days of Pompeii" until the lights went out. He slept well and appeared in the corridor this morning for two hours. SPICY LETTERS IN BLANEY CASE.

It is Said They Will Be Introduced at the Hearing Next Tuesday.

CONSTABLE ON THE TRAIL

He Secured the Letters as Evidence and It Was For Want of Them That Arrest of Principals Was Deferred Until Yesterday.

Special to The Courier. UNIONTOWN, June 25.—It developed this morning that at the hearing next Tuesday in the \$10,000 conspiracy case of Mrs. Lizzie Woolsey against Mrs. Sallie B. Blaney, letters of a spicy nature will be introduced as evidence.

This morning it was stated that the information against Mrs. Blaney and her son, Grant, was made before Squire Daniel M. Hiler about two months ago, but owing to lack of evidence, the arrests could not be made.

It is said that a constable has been kept constantly with Mr. Woolsey, the wealthy Uniontown man, who is alleged to have paid the defendants \$10,000 under threats of exposure, in the hopes of securing letters or notes of some sort. Those now in the hands of the County Detectives are said to have come into their possession in this manner and incriminate both the mother and son. They are said to be of a blackmailing nature.

Attorney W. C. McKean, it is understood, this morning, has been retained by Mrs. Blaney for the defense.

In case the hearing is held next Tuesday, it will probably last the whole afternoon, on account of the large number of witnesses who have been summoned. However, many expect the defense will waive a hearing and give bail for court.

CROSS SUIT IS OUTCOME OF ROW.

Employees of Glass Brick Company Have Battle on Thursday.

BOWMAN BESTS TWO MEN

He Is Arrested and Prosecutes Foreman and Another Man—Trouble Started When Bowman Declared the Gas Was Turned Too High.

Because William Bowman claimed the men at the National Glass Brick Company had to work under intense heat, a row occurred Thursday which resulted in cross suits being instituted before Justice of the Peace P. M. Buttner and W. P. Clark. Bowman waived a hearing before Squire Buttner and gave bail for his appearance at court to answer to charges of assault and battery with intent to kill. He immediately had Benjamin D. Gallbreath, the prosecutor against him and George Roach, foreman of the plant, arrested on charges of assault and battery. These defendants gave bail for their appearance at a hearing Tuesday.

Both sides make claims over how the trouble started but the facts seem to be that Bowman complained to Foreman Roach about the heat in the glass department, saying the gloves of the men were catching fire as they handled their tools. Roach is said to have replied that Bowman was merely registering another kick and that he was a chronic grumbler on the job.

A companion of Bowman's stepped up and also argued that the gas be turned lower. This is said to have enraged Roach, who directed the men to return to work. Bowman refused unless the gas was turned down and threatened to quit on the job. As the men were wrangling over the matter Gallbreath is said to have rushed at Bowman with a hammer. Bowman ward off the blow and felled Gallbreath with a wallop under the chin. All three men then mixed it. Bowman was finally overcome, it is said, and would have been badly beaten had not his fellow workmen come to his rescue.

His body a mass of bruises, Bowman swore out the informations yesterday. Both Roach and Gallbreath are said to bear marks of the conflict, although Bowman's face was not disfigured.

The trouble will be given a thorough airing before Squire Clark Tuesday. Bowman formerly worked as a policeman on the local force.

Night Letter is Popular but it Hurts Business

With the growing popularity of the night letter telegraph service complaints are being made against the regular day messages. When these messages are already complaining that important messages are being delayed by the transmission of the night letters. Both the Western Union and the Postal transmit messages up to 50 words at night for the price of a 10-word day message. MAY SMITH ROBBINS APPEARS

In Cast of "Fun on the Bristol" After Absence From the Stage for a Number of Years—The Season at Uniontown.

Connellsville, as a stock company town, is a success, according to Manager Fred Robbins of the Saison. With the exception of one or two weeks during the present season, when attendance fell off, this town has done better than Uniontown.

Both stock companies which have played at the Saison this summer have had profitable runs and while the Keyes Sisters did a shade better in Uniontown, this is accounted for by the fact that they opened the season there.

On the total receipts to date, the Saison has done better than the Grand. Business at both houses has been remarkably good.

This week will be the last of the Keyes Sisters' engagement here. The Saison will be dark Fourth of July week but after that a new company will begin an indefinite run. The Keyes Sisters return to Uniontown following their engagement here.

May Smith Robbins made her first regular appearance in several years at the Saison last night when she appeared in "Fun on the Bristol." She was supported by the Keyes Sisters company and the play scored a big hit. It will be repeated this afternoon and evening.

NEEDFUL KNOWLEDGE.

Connellsville People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage and attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Hei's Connellsville proof:

George Nace, Connellsville, Pa., says: "Kidney trouble kept me in misery for five years and my back was extremely painful and lame. The least work tired me and I was languid and nervous. Sometimes a dizzy spell came over me and blurred my sight. The kidney secretions passed too frequently and contained a sediment. Whenever I caught cold it had a bad effect on my entire system. Finally I commenced using Doan's Kidney Pills and in return for the honest they brought I willingly recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Young Men

are recognized as the critical clothes buyers; they give more thought to style in clothes than older men; and they ought to. When a man gets established in business and in society he can afford to be a little less particular, though many such men are still very exacting.

But young men are apt to give so much thought to style that they neglect quality; if the clothes look smart and lively, young fellows are quite likely to forget to insist on having them good also.

There's no reason why you shouldn't have the smartest style, with the best and highest quality.

Hart Schaffner & Marx

make our young men's clothes; the styles are very lively; but the fabrics are always all-wool, the tailoring is the best possible.

Have style and quality both; just as easy to have both, as to have one. Suits \$20 to \$25.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. POLITICAL PRINCIPLES AND PETTY FANATISM.

John Kinley Tener is accused of having the stamp of Senator Penrose's approval. He has the stamp of approval from a great many other political leaders in and out of Pennsylvania, as his election in the House of Representatives at Washington amply attests; and he also has the stamp of approval of the great preponderance of Pennsylvania people at the polls this fall.

"The Rubber Stamp Candidate" will make a record run, and the more he is abused by muckraking and mendacious newspapers the harder and the faster he will run. The Republican candidate is a man of high character and attainments. He will fill the office with credit to himself and his party.

But the insurgent element says he bears the brand of Boss Penrose's rubber stamp. Any one of the insurgents would have been glad to have been rubber-stamped themselves, but they didn't have a chance, hence their howling. The Democratic insurgents are howling in unison against Webster Grim, whom they accuse of bearing the brand of Boss Guffey's rubber stamp. It's a great concert the insurgent element is having.

The doctrine of majority rule has been a principle of American politics and American government from the days of the Declaration of Independence. If the insurgent Republican party of Pennsylvania prefers to head the judgment and follow the advice of Senator Penrose, its determination must stand. The same may be said for the Democratic party and the leadership of Colonel Guffey.

Battles for the control of party organizations and the nomination of party candidates are properly fought out within the party. If the ticket nominated is one which is worthy of confidence and support there is no excuse for opposing it at the polls. If there represent these political principles which the voter conscientiously believes to be best for the whole people.

Factionalism should cease when the primary elections and conventions are over, and those who continue to indulge in them may justly be suspected of being willing to sacrifice great causes to small things.

WESTMORELAND'S WICKED PRIMARIES.

The allegation of an attorney interested in the proceedings, that out of 181 election districts in Westmoreland county only 16 "came clean" under the searching light of private investigation, and the conclusion of the Republican leaders to put the lid on further inquiry lest the revelations should prove politically damaging, indicate that primary politics are quite as bad in Westmoreland as they are in Fayette and other counties; in fact, it is beginning to be painfully evident that the Uniform Primary law has been more uniform in demoralizing the primaries of both parties than useful in accomplishing any measure of real reform.

The suggestion that all the unclean districts be thrown out and the nominations be determined by the votes of the Street Sixteen would not be fair to the candidates or the voters. "Irregularities" in a whole poll should not nullify the votes of many honest citizens. The only improvement that could be made upon the determination to drop the matter would be to hold the primary over again, and that is not feasible.

It is perfectly practicable, however, to punish all known corrupters of the ballot; and it is also a public duty of the public officials to see that they are brought to trial.

A LOOK AHEAD.
If this "Noisome Fourth" agitation is successful.

THE WORKINGS OF THE FRICK RELIEF FUND.

The practical workings of the voluntary relief plan of the H. C. Frick Coke Company are illustrated in a case which recently occurred at the Whitney plant and which is described by the Latrobe Bulletin as follows:

Although greatly to be deplored, the accident which occurred in the Whitney mine, late yesterday afternoon, when Mike Harlock lost his left foot under the wheels of a mine wagon, serves to bring out the beneficent features of the Voluntary Relief plan recently promulgated by the Frick Coke Company for the benefit of its thousands of employees. Under the terms of the Relief Plan, Harlock, having lost his limb, becomes entitled to wages for a period of twelve months.

Being a married man, Harlock, having lost his limb, becomes entitled to wages for a period of twelve months. Being a married man, Harlock, having lost his limb, becomes entitled to wages for a period of twelve months. Being a married man, Harlock, having lost his limb, becomes entitled to wages for a period of twelve months.

Being the father of seven children, all of whom are under sixteen years of age, entitles him to receive five per cent. additional for each child, making thirty-five per cent. to be added to the fifty per cent. already stipulated. And being an employee with more than seven years' service, he is entitled to an additional two per cent. for each year of service after the fifth. Thus, under the terms of the Relief Plan, the man will be entitled to receive 100 per cent. of the wages which he was earning when he was injured, for the next twelve months to come; providing the same shall not be more than two dollars per day.

The two dollars per day, which the Frick company will pay to Harlock for the next twelve months will not reimburse him for the loss of the limb, which was taken from him yesterday. But through the months to come, while he is lying helpless, recovering from the accident, and then the months to follow, while he is accumulating himself to going through life on one foot, it is certainly a God-send to him to know that for each day of the year, his wife and his seven little children are to be assured food and clothing and shelter, such as two dollars a day will provide.

The Frick relief fund has been a fortunate thing for this unfortunate Frick employe, and it hasn't cost him a cent. The relief proposition is one of the very few anywhere existing which asks no contributing support from the employees. It is not a full and fair recognition of the liability of employers which has been the subject of recent legislation; nor is it intended to be; but it is a frank and free half-way meeting, and an undeniable expression of the friendliness which the management entertains for tried and trusty men.

It is not all charity, nor all business, though it partakes of the nature of both. It is an evidence of the company's good will as well as the reward of sober and steady service. Call it a premium on faithful and competent workmanship, if you like; but it remains a voluntary and valuable expression of hearty good will and substantial appreciation.

THE MAGNIFICENT BLUFF OF MAGNANIMOUS GRIM.

With a great show of political virtue, Webster Grim, Democratic nominee for Governor, declares that he wants no tainted nomination, and that if a majority of the delegates to the late Democratic State Convention will certify that they were "misled in their action," and "desire that the convention be recalled" to reconsider it, he will offer no objection.

We fear the Hon. Web. Grim is something of a bluffer. It will not require a majority of the delegates to compel the recall of the Abolition Convention. It seems that one-fourth of them will effect that result without the aid or consent of Pennsylvania's magnanimous Webster.

The Hon. Web. Grim should have maintained a Grim silence.

SCOTTSBURGH, June 25.—The Upper Tyronese Township School Board met with President Broome in the chair and Messrs. King, Huley, Hixson, Koller and Hest present last evening. President P. O. Peterson of the Potomac Business College was elected as Superintendent of writing for the township and will meet with the teachers every month and drill them in the art of writing, speed and legibility of a business handwriting being the goal sought for. Mr. Peterson has been selected by a number of boards in the county for this purpose and the chief one of reforming the writing by hitting the vertical style that has been such a ruinous fad in the schools for the last several years. His on acting as treasurer for the funds of the district was opened from the Scottsdale Bank which bid 3 1/2 per cent. and the Broadway National Bank of Scottsdale which bid 2 1/2 per cent. on the daily balances. The Broadway bank was selected as the depository of the funds. A motion made by Mr. Huley that the salaries of the teachers remain the same as last year, \$15, \$30 and \$45 per month was passed. Although it was a sweltering night the Board signified its desire for bids for the furnishing of coal for the coming year and motion to that effect was passed, with the date of letting the contracts to be made later. The election of teachers will be taken up the latter part of next month.

## MASSACRE AT TROTTER WHEN LEISENRING GOT THROUGH GAME.

A Crippled Team Was Vanquished by a 12 to 6 Score, But Put Up a Game Fight.

### JOLLY JOE IS HIT HARD

But With Good Support He Would Have Pulled Out—Trotter Makes Seven Errors—Alexander of Leisenring Catches With Broken Finger.

Leisenring, 12, Trotter 6.  
Davidson 6, Hill 1.  
Trotter 12, Leisenring 6.  
Davidson 6, Hill 1.

Leisenring won another victory yesterday this time defeating Trotter 12 to 6 in nine innings. Jolly Joe was not as effective as on former occasions. The game was played at Trotter and started out with Trotter badly crippled. Leisenring scored in the first inning but Trotter tied in the third. The visitors went ahead one run in the fifth but in the last half of that inning Trotter bunched their hits and scored three runs. Leisenring piled up four in the sixth and three each in the eighth and ninth. Trotter scored two runs in the ninth but the rally was checked. Leisenring had too great a lead.

Trotter tried Lempha, a new man, at second base. As the Leisenring boys were hitting, a number of infield batters the new man had his hands full. Out of seven chances he had three miscues, but they were on difficult plays. The support given Jolly Joe was discouraging, as Trotter piled up seven errors. Finerty, for Leisenring, was little better off in this respect, five miscues being chalked against his teammates. Three of these, however, were against Alexander, whose broken finger has not yet mended, and whose work was off color on this account. Two of Trotter's best players were out of the game owing to injuries.

Sidley and Clark were the heavy hitters for Leisenring, each having three hits. One of Sidley's was for two sacks, Columbus and Runey were the only Trotter men who could find Finerty's curves to any great degree. The score:

\*Frick League Notes.

Gettle had four stolen bases but his sliding was off color.

Meegan is said to be a second Jack Flynn. Does he have had legs?

Clark had three hits, scored three runs and swiped three bases.

Finerty fanned 11 men; Jolly Joe seven.

It was a busy day for the backstops. Alexander having 11 chances and Runey 12.

Finerty pitched a good game. Finerty had two hits and scored three runs. He is credited with five assists, also.

Sweeney worked Jolly Joe for two passes a first.

Finerty, Clark and Meegan saved Leisenring at one stage of the game when their double play retired the side after Trotter had filled the bases.

Davidson invaded Westmoreland county this afternoon, playing at United.

Columbus is hitting well enough for Trotter to be advanced to the "clean up" position on the batting order now occupied by Jolly Joe.

Just about time for the managers of the various teams to put the league on a business basis and arrange a schedule. Davidson, Monarch, Leisenring and Trotter are playing regularly in this section and Altoona and Erie, with two other clubs towns would make a dandy eight club circuit. How about it, managers?

Abundant has lots of nerve. He should not have played yesterday so he went in and did his best, which wasn't at all bad.

R. Barry was hit twice by Jolly Joe's curves. He also had a sacrifice hit. Barry is one of the best men to advance runners and for that reason

### DAVIDSON TEAM DEFEATS CONNELLSVILLE HILL TOPS

Intresting Seven Inning Contest Is Waged at Sligo Field Yesterday.

The Davidson team landed on Williams in the fifth inning of yesterday's game and won 6 to 1. Up to that time the Hill tops had the best of the argument. Both teams had plenty of errors. Davidson played like Hans Wagner used to play. He had three hits, one of them for two bases.

Superintendent Beerbower says the game at United today will be of particular interest. He will let the players off early in order that they may catch the 1 o'clock car. United is about two miles from the street car line. The Davidson boys will be met by a wagon and will be given supper after the game. They will then be driven back to the street car line afterwards. Yesterday's score:
